

Shopdaten

The screenshot shows a configuration form titled "Shopdaten" within a dark-themed interface. The form has three input fields: "URL zum Shop" with the value "https://gurkenshop.dako-it.com/", "Zugangs-ID" with the value "SWIAQM5RDLBOQ0LUA05BDXZ0EA", and "Sicherheitsschlüssel" which is currently masked with dots. The interface includes a sidebar with a menu icon and a settings gear icon in the top right corner.

In den Shopdaten wird der Zugang zum Shop konfiguriert. Bestehend aus der **URL des Shops**, der **Shopware-Zugangs-ID** und dem Shopware **Sicherheitsschlüssel**.

Um die Zugangs-ID und den Sicherheitsschlüssel zu erhalten, muss im Shopware-Backend eine neue Integration erstellt werden. Dies erfolgt unter **Einstellungen -> System -> Integrationen**.

The screenshot displays the "Integration anlegen" (Create Integration) dialog box. The "Name" field contains "FINN.ghost" and the "Administrator" checkbox is checked. The "Rollen" (Roles) dropdown is set to "Administrator". The "Zugangs-ID" (Access ID) field shows "SWIAVUZ4MGHATWFRVVJ1NJQ5NG" with a copy icon. The "Sicherheitsschlüssel" (Security Key) field shows "OXo4Z0JnNTBnTEdzUlhPZkpjbVAYNlh2UjUzT1Rkekw4TmR3e" with a copy icon. A red rectangle highlights these two fields. Below the fields, an orange warning box states: "⚠ Bitte notiere Dir jetzt den Sicherheitsschlüssel. Nachdem die Integration gespeichert wurde, wird der Schlüssel aus Sicherheitsgründen nicht wieder angezeigt." (Please note the security key now. After the integration is saved, the key will not be displayed again for security reasons). At the bottom, there are "Abbrechen" (Cancel) and "Integration speichern" (Save Integration) buttons. The background shows the Shopware administration sidebar with "Einstellungen" (Settings) selected.
